

# DIAMOND BITS

**IMPREGNATED BITS**

**SPS BITS**

**PCD CORE BITS**

**DIMATEC IMP  
BITS**

**REAMER SHELL**

**PCD NON CORE  
BITS**

## Synthetic Diamond Drill Bits

Suitable for Hard Formations

**Series 8:** Suitable for medium hard – Coal, Uranium etc

**Series 10:** Suitable for hard – Iron ore, Granite etc

**Series 12-14:** Suitable for Extra hard - Iron ore BHJ/BHQ etc

## Impregnated Diamond Core Drill bits

**40 Carat-H8:** Suitable for Lime stone, Coal, Sand stone

**50 Carat-H9:** Suitable for Hard lime stone, etc

**60 Carat-H10:** Suitable for Medium hard formations

## Gear type Impregnated bits

Suitable for lime stone, sand stone formations

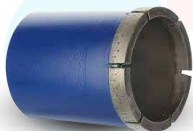

## PCD Core Bits & PCB Non Core Bits

Suitable for soft to medium hard formation for faster speed

## Surface Set SPC Diamond Bits

5/25, 20/30 etc – Suitable for Coal, lime stone formations

## Casing Shoe Diamond & Shoe - TC

For Casing reaming & lowering work

## Reamer Shell

For all formation
