Kores Induction hardened drill rods

STRONGER. SMARTER. MADE FOR MORE.

Available in: P Size, H Size, N Size, B Size drill rods and a wide range of casing sizes -all induction hardened for superior durability and performance.

Why Kores Drill rods:

Built to Global Standards

Equivalent to the quality of leading imported rods.

Top-Grade Raw Material

Crafted from premium **SAE 4130** tubing for strength and resilience.

Advanced Induction Hardening

Automated hardening process for consistent, high-precision performance.

Lloyd Test Certified

Third-party certified for top-quality assurance.

Long Operational Life

Engineered to last over **10,000 meters** under demanding conditions.

BIS Certified Wedge Lock Design

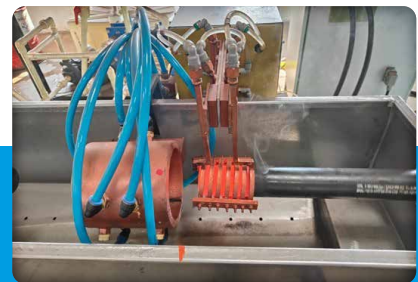

Enhanced locking and superior operational safety.

Stringent Quality Testing

Every rod undergoes **leakage** and **hardness** testing to ensure reliability.

Kores state of art manufacturing Plant for drill rods:

Powered by the latest CNC machines and automatic induction hardening systems, our facility ensures world-class precision in every rod we produce.

INDUCTION HARDENED DRILL RODS

P DRILL ROD

- Grade : 4130 / 1541
- OD : 114.50 mm
- ID : 101.5 mm
- Thickness : 6.5 mm
- Hardening : 100 mm / 200 mm
- Weight 3 Mtr : 52.50 Kgs

H DRILL ROD

- Grade : 4130 / 1541
- OD : 88.90 mm
- ID : 77.70 mm
- Thickness : 5.60 mm
- Hardening : 100 mm / 200 mm
- Weight 3 Mtr : 34.91 Kgs

N DRILL ROD

- Grade : 4130 / 1541
- OD : 69.90 mm
- ID : 60.20 mm
- Thickness : 4.85 mm
- Hardening : 100 mm / 200 mm
- Weight 3 Mtr : 23.51 Kgs

B DRILL ROD

- Grade : 4130
- OD : 55.60 mm
- ID : 46.10 mm
- Thickness : 5.60 mm
- Hardening : 100 mm
- Weight 3 Mtr : 18.60 Kgs
